Conditions

This warranty is subject to the following conditions:

1. Servicing - In order to maintain the validity of your warranty you must have the Vehicle serviced by a VAT registered repairer and look after the Vehicle in accordance with the manufacturer's Servicing Handbook and ensure that the manufacturer's recommended type, grade and quality of engine oil is used. To prove this you should make sure the garage fills in and stamps your Servicing Handbook. You should also keep all service invoices (which you must ensure detail the exact oil specification used) as you must verify that correct servicing has been completed when repairs are made under the warranty. You should also ensure that the cambelt is changed in line with manufacturer's recommendations (documented proof of this will be required in the event of a claim for cambelt failure). A maximum allowance of 30 days or 1,000 miles (whichever occurs first) in excess of the manufacturer's stipulated time or mileage for scheduled servicing is permitted.
2. Procedure for recovery of repairs – This procedure is detailed on page 3. **You** must follow this procedure, failure to do so may result in non-reimbursement of **your** repair.
3. Repair Authorisation - No repairs are to be commenced until the Administrator has given authorisation and an authorisation number obtained.
4. Investigation Costs - It is **your** responsibility to give the repairer permission to commence exploratory, investigation or dismantling work and to pay the costs if such work proves that the fault is not **our** responsibility. Any exploratory, investigation or dismantling costs will only be reimbursed if they are part of a valid repair.
5. Use of Engineers - **we** reserve the right to instruct an independent engineer to inspect **your vehicle** before authorising any repair. When this right is exercised **we** shall have no liability for any loss to **you** arising from any possible delay. Should **you** decide to give permission to the repairer to commence repairs, without an authorisation number being obtained from the **administrator**, **you** do so in the full knowledge that **we** may not meet the cost of **your** valid repairs because **you** have denied **us** **our** right to inspect the **vehicle** prior to its repair.
6. Contribution - It is not the intention, implied or otherwise, of the warranty to make new vehicles from old. In certain circumstances where replacement **components** are fitted to replace old worn **components** which have suffered a **breakdown** and this results in **your vehicle** being in a better condition than it was before the **breakdown**, **you** are required to pay a contribution towards the cost of the repairs. For vehicles older than 6 years or with more than 60,000 recorded miles this warranty will provide cover based upon the limits detailed in the customer schedule and in accordance with the following table based upon **vehicle** age and mileage at time of failure. Warranty pays:

Vehicle age or Mileage	Labour	Parts
Up to 6 years or 60,000 miles	100%	100%
Up to 7 years or 70,000 miles	100%	80%
Up to 8 years or 80,000 miles	100%	70%
Up to 9 years or 90,000 miles	100%	60%
Up to 10 years or 100,000 miles	100%	50%
Over 10 years or 100,000 miles	100%	50%

(N.B. The mileage limits as stated above are the total miles from the date of the **vehicle's** first registration for use on the road.)
